

AMENDMENTS TO THE CLAIMS:

Claims 1-28 (Canceled)

29. (Currently Amended) ~~An SAW~~ A Surface Acoustic Wave (SAW) device comprising:

an SAW element which ~~has~~ includes a piezo-electric substrate and at least one pair of resonators each of which ~~has~~ includes a shape of the teeth of a comb with being involved in each other;

a packaging substrate on which said SAW element is mounted through a plurality of bumps; and

a ratio between a total area of said a plurality of bumps formed on said SAW element and a mass of the SAW element being not smaller than 0.0085 mm²/mg.

30. (Currently Amended) An SAW device as claimed in claim 29, wherein said a plurality of bumps ~~are~~ comprise gold bumps.

31. (Currently Amended) An SAW device as claimed in claim 29, wherein an electrode on which said a plurality of bumps are formed ~~is composed of~~ comprises aluminum having a film thickness between 0.5 μm and 1.0 μm, both inclusive.

32. (Currently Amended) An SAW device as claimed in claim 29, wherein said SAW device ~~is~~ comprises a branching filter on which two said SAW elements having central frequencies of bands different from each other are mounted.
